

**To: All Aquarina of Residents**  
**Re: COVID-19 - Update #22**  
**Date: August 14, 2020**

Dear Residents and Neighbors,

Locally, nationally and globally, COVID 19 shows no signs of running its course and ending anytime soon.

### **Trends**

The charts below demonstrate this growth by comparing two dates, a month apart or Florida, Brevard County, and our local zip codes. Please keep in mind that some scientific models project there are up to 5x the actual number of COVID 19 than are diagnosed and reported. The good news is that Florida's daily new case rate is now dropping again after peaking mid/late July.

COVID 19	7/8/2020	8/13/202
Florida total cases	223,783	557,137
Florida total deaths	3,889	8,912
Brevard County total cases	2,812	6,313

Communities/Zip codes/Total Cases	7/8/2020	7/13/2020
Satellite Beach (32937)	81	224
Indian Harbor, Indialantic (32903)	51	119
Melbourne Beach (32951)	23	64
Vero Beach (32963) S of Aquarina	58	94

### **Aquarina Update**

We are happy to report that all of the subsequent COVID 19 tests of the involved AGI employees have been negative. Thanks to everyone for working through our protocols and processes to help insure our employees and residents are as safe as possible during this pandemic.

The COVID 19 Task Force and the entire ACSA Board continues to be committed to following the CDC guidelines and recommended practices throughout Aquarina. We strongly encourage that all of our residents and guests do the same by social distancing, wearing a mask when social distancing is not possible and frequent hand washing.

### **Looking Forward**

COVID 19 vaccine development is encouraging for 2021. There are growing concerns about the approaching flu season and schools resuming. Remember to limit your travel, avoid crowds and

gatherings, especially in large numbers and those that include younger people and are indoors. ***This year it is critical that everyone get an influenza vaccine as soon as possible.*** The vaccines are available at locations like Publix, Wal-Mart and pharmacies.
